## **Improving the Quality of Teaching at Vocational Educational Establishments within International Partnership Context**

**Friday, 07th of April, 2017**

### **Lithuania (the second seminar)**

On the 7<sup>th</sup> of April, 2017, Daugavpils Trade Vocational Secondary School teachers participated in the international seminar "Teaching quality improvement of vocational education institutions of international cooperation" in the context of the project "International Partnership for Improving the Quality of Teaching in Vocational Schools", no. 2014-1-PL01-KA202-003372. The seminar took place in Vilnius, Lithuania, Vilnius Technology School of Business and Agriculture.

During the first part of the seminar the project idea and information about 4 achieved results have been presented. The professor Boguslavas Gruževskis - head of the institute of labour market research of Lithuanian social research Centre has told about the innovations and information technologies for vocational education and labour market needs.

During the second part of the seminar school students demonstrated MOODLE opportunities through 3 innovation courses. Lithuanian partners have shown advantages and effects of the project: students-teachers-partners-entrepreneurs.

The project leader has presented summary of work results in the Erasmus+ project.

The active discussion about project further development and importance have been done among all involved parties and quests.

The next meeting of the project participants - project final conference will take place in Poland, Lomza - June 9, 2017.

Outcome of the project: Moodle platform adaptation of modern educational process in vocational schools: <http://ekonomik-lomza.moodle.org.pl>

This publication has been implemented with the financial support of the European Commission under the Erasmus+ program.

International Partnership for Improving the Quality of Teaching in Vocational Schools
